What does this information mean?

- "Accrued gross earnings" sums the payments made in that month.
- "Verified mileage expenses" uses mileage from the Platform/App. We multiply this by the federal mileage rate (\$.70 for 2025), which covers all costs related to a car. These can be costs like gas, car payments or leasing fees, car insurance, repairs, and maintenance.
- "Total hours worked" sums the time it took to complete every gig worked in that month. There may be gigs worked in a month that were paid in the following month.
